### **Best Chemical Co (S) Pte Ltd Partners EduTorque in Automotive Education**

EduTorque is pleased to announce its partnership with Best Chemical Co (S) Pte Ltd ('Bestchem') as its official race fuel partner for 2015. Bestchem will support EduTorque in promoting automotive and motorsport education in Singapore's academic institutions.

"As we're seeing increased interest in race fuel technology among the next generation of motorsport enthusiasts, we are thrilled and looking forward to this initiative with EduTorque," said Mr Johnny Wong, Managing Director of Bestchem which is the exclusive distributor for VP Racing Fuels ('VP'), including VP PowerMaster Fuels, in Southeast Asia.

An avid motorsport enthusiast himself, Mr Wong added, "As a forward-thinking business that recognizes the value of education in developing and supporting a growing pool of discerning drivers and aspiring motorsport engineers and enthusiasts, we are confident that our partnership with EduTorque will provide budding drivers and motorsport practitioners with the opportunity to enhance their performance through better understanding of cutting-edge race fuel technology and effective customized applications."

Director of EduTorque, Mr Calvin Lim, also spoke of this new partnership with Bestchem. "I am very excited about our partnership with Best Chemical Co (S) Pte Ltd. The Singapore company has a strong presence in Southeast Asia and is the front-runner in manufacturing chemicals and distributing racing fuels and performance additives in the region," he said. "Through their enthusiasm and commitment to automotive education in Singapore, our students will definitely gain valuable insight and knowledge about specialty chemicals used in the automotive industry."

## **ABOUT EDUTORQUE**

Being the sole provider of holistic automotive education in schools, EduTorque continually seeks to strengthen current relationships and build new partnerships with industry sponsors and partners in vision to grow the love for cars and motorsport scene locally.
